

# West Wicklow Environmental Network

West Wicklow Environmental Network was established in 2019 with the aim of providing a platform for individuals and groups throughout West Wicklow with a shared interest in protecting the environment, natural heritage, sustainable development and climate action to come together, communicate, share knowledge and experience, contribute towards policy change at local level and at national government level, promote green events and create environmental awareness within West Wicklow.

Over the last two years West Wicklow Environmental Network has held regular events both physical and online. The network now has over 100 members, and they are active members of County Wicklow Public Participation Network.

The work of the West Wicklow Environmental Network is aligned to many of the SDGs but principle amongst them is delivering on SDG 13 Climate Action.

Other SDGs that the Network's activities to date are aligned with included: SDG6. Clean Water and Sanitation; SDG 7. Affordable and Clean Energy; SDG 11. Sustainable Cities and Communities; SDG 12. Responsible Consumption and Production; and SDG 15. Life on Land

Membership of the Network is open to anyone in the West Wicklow area with an interest in environmental issues and a commitment to the aims and values of the Network.
