**2040**

**Funded by the Government of Ireland's Community Climate Action Programme (Strand 2): Climate Education, Capacity Building and Learning by Doing. Administered by Pobal**

Launch in Cloughjordan, May 2023

# The Journey

## Community of Practice

Participants engage in a Continuous Professional Development programme to build skills and knowledge to empower change at the local level:

**3 In-Person Capacity Building Co-Design sessions**

**5 On-Line Facilitation Training sessions, including engaging hard to reach communities**

**1 In-Person Facilitation Training session**

**2 Additional Online Expert Input and Support sessions**

## Co-Host Three Community Sessions in 2024

These will be held in each of the 5 county municipal districts. These 3 sessions will develop local climate resilience and wellbeing pathways for each MD of the County. A key focus is to engage and support marginalised and seldom heard communities.

- 1. Nature and Place Connection**
- 2. Identifying and Mapping Community Strengths**
- 3. Local Resilience and Wellbeing Conversations**

**Plus** - Stakeholder session to complete the local climate resilience and wellbeing pathways

Community of Practice Session on Mapping Community Strengths

# The Replication Plan!

## ***National Symposium on the Community Climate Coaches Project and Launch of the Project Toolkit***

- Spring 2024 - a national symposium
- Showcase the project's outcomes
- Stakeholders from PPNs, local authorities, and other climate action and social inclusion initiatives nationally

**Main Output:** A toolkit to guide other PPNs in the process of developing climate coaches in the community

**Opportunities:** Regional PPN Networks can work together to support the growth and training of coaches together

Workers/volunteers in seldom heard communities can meet in their municipal districts with other community coaches to become teams
